

Connecticut

Office of Manufacturing

Resources for Manufacturers

CONNEX Marketplace

Online platform connecting U.S. suppliers and buyers with an accurate, searchable supply-chain database

Manufacturing Ambassador Program

Become an Ambassador and help move manufacturing forward by sharing your passion for manufacturing

SIRI and Cyber Assessment

Use assessment to further cybersecurity requirements and plan for digital adoption

Apprenticeship Program

Add Registered Apprenticeships to train and fill critical positions required for stability, continuity, and growth

Manufacturing Voucher Program

Purchase technology (e.g. equipment, software, etc.) to keep pace with state-of-the-art product development and manufacturing

Model-Based Definition Adoption

Start your digital transformation using model-based definition (MBD) processes and technologies

Additive Manufacturing Program

Use additive manufacturing with metals and 3D printing with plastics to solve complex and varied challenges

Engineering Internship Program

Connecticut offers paid internships across the state working with local manufacturers. Learn in CT. Earn in CT. Stay in CT.

Incumbent Working Training

Train your incumbent workers in the appropriate skills to meet current and emerging market needs

IoT Integration Voucher Program

Funding to adopt Industry 4.0 solutions: Industrial IoT, Big Data and Analytics, Additive Manufacturing, and Automation

FORGE Impact

Get help navigating the journey from physical prototype to commercialization.
Invent in CT. Manufacture in CT.

Technology Demonstration

Access training, hands-on demos, workshops and online resources to help you learn about Industry 4.0 technologies
